brute washable hose**ID : AC01****size: Ø18x1550mm (Ø0.7x61")****specification:**

The body of the hose consists of two layers: it is a silicone pipe coated with black anodized aluminium. The silicone pipe complies with all sanitary requirements of use in food industry, so you can be sure, that the taste of tobacco smoke remains 100% intact. The hose is fitted with a rotary joint which makes it very easy to manipulate with when smoking. A grounded simax glass socket joint is optionally connectible to the rotary joint. The hose may be washed by water together with the cleaning agent anytime.

**noble washable hose****ID : AC02****size: Ø18x1550mm (Ø0.7x61")****specification:**

The body of the hose consists of two layers: it is a silicone pipe coated with natural anodized aluminium. The silicone pipe complies with all sanitary requirements of use in food industry, so you can be sure, that the taste of tobacco smoke remains 100% intact. The hose is fitted with a rotary joint which makes it very easy to manipulate with when smoking. A grounded simax glass socket joint is optionally connectible to the rotary joint. The hose may be washed by water together with the cleaning agent anytime.

**mirage washable hose****ID : AC03****size: Ø18x1530mm (Ø0.7x60")****specification:**

The body of the hose consists of two layers: a silicone pipe is wrapped in stainless steel braiding. The silicone pipe complies with all sanitary requirements of use in food industry, so you can be sure, that the taste of tobacco smoke remains 100% intact. The hose is fitted with a rotary joint which makes it very easy to manipulate with when smoking. A grounded simax glass socket joint is optionally connectible to the rotary joint. The hose may be washed by water together with the cleaning agent anytime.

joint connector classic**ID : AC04****size: Ø18x50mm (Ø0.7x2")****specification:**

A simax-glass grounded joint connector for type of meduse hose "Classic" (a hose equipped with a joint connector "Classic" – without a built-in check-valve).

**joint connector comfort****ID : AC05****size: Ø18x60mm (Ø0.7x2.4")****specification:**

A simax-glass grounded joint connector for type of meduse hose "Comfort". These joints are intended for multi-hose models DUALITY (with 2 hoses) and TRINITY (with 3 hoses). They feature a check valve, so you don't have to blind the handle while not drawing from pipe. The hose with check valve lets smoke through only one way: from the pipe corpus to the smoker. Using your pipe becomes more comfortable.

**hose holder****ID : AC06****size: 20x20x50mm (0.8x0.8x2")****specification:**

Hose holder was designed for more comfortable hose putting off. It is made from stainless steel.

mirage hose handle

ID : AC07

size: Ø20x220mm (Ø0.79x8.7")**specification:**

The hose handle made from highly durable simax glass offers unique possibility to enjoy the smoke also with your eyes. This unmatched solution was designed for Mirage and Mirage Grande models and lets you watch the smoke pouring right through your palms.

male plastic tips

ID : ACP01

quantity: 100 pcs**specification:**

Male plastic tips allow for sanitary smoking conditions in case one mouthpiece is shared by multiple smokers. The tip is standardized for all hose types produced by Meduse Design.

air exchange valve**ID : AC08****size: Ø25x65mm (Ø1x2.5")****specification:**

The grounded check -air- valve is made from simax-glass and comes in a protective box. The air valve (or one-way valve) allows the user to clear stale or overly thick smoke form the glass shisha corpus. This is done by blowing into the hose and pushing the used smoke out through the air exchange valve. The valve is blocked off by a simax glass ball bearing, which prohibits fresh air from entering the shisha pipe when sucking on the hose.

**hose port plug****ID : AC09****size: Ø19x23mm (Ø0.75x0.9")****specification:**

The grounded (simax glass) hose port plug is intended for blinding hose openings on multiple hose shisha pipe (type of Duality or Trinity pipe), when there is no need to use so many hoses.

**tongs****ID : ACP02****size: 130x25mm (5.1x1")****specification:**

The tongs are made from stainless steel and designed with maximum regard to user comfort (fits your hand, easy to handle and sturdy), same time its design is in perfect harmony with the Meduse Pipes collection visual concept.

dying set - red**ID : AC10****capacity: 50ml****specification:**

Exclusively on the worldwide market we are the only to offer our customers enhanced visual smoking experience - coloured shisha pipe filling. All the special dyes we use comply to rigorous sanitary standards of food industry. The set includes a dose with red dye and a glass dosing spoon. The dose contains 50 ml of dye which is enough to colour water in 150 pipes.

**dying set - blue****ID : AC11****capacity: 50ml****specification:**

Exclusively on the worldwide market we are the only to offer our customers enhanced visual smoking experience - coloured shisha pipe filling. All the special dyes we use comply to rigorous sanitary standards of food industry. The set includes a dose with blue dye and a glass dosing spoon. The dose contains 50 ml of dye which is enough to colour water in 150 pipes.

**dying set - yellow****ID : AC12****capacity: 50ml****specification:**

Exclusively on the worldwide market we are the only to offer our customers enhanced visual smoking experience - coloured shisha pipe filling. All the special dyes we use comply to rigorous sanitary standards of food industry. The set includes a dose with yellow dye and a glass dosing spoon. The dose contains 50 ml of dye which is enough to colour water in 150 pipes.

dying set - red / extra large**ID : AC13****capacity: 250ml****specification:**

Exclusively on the worldwide market we are the only to offer our customers enhanced visual smoking experience - coloured shisha pipe filling. All the special dyes we use comply to rigorous sanitary standards of food industry. The set includes a dose with red dye and a glass dosing spoon. The dose contains 250 ml of dye which is enough to colour water in 750 pipes.

**dying set - blue / extra large****ID : AC14****capacity: 250ml****specification:**

Exclusively on the worldwide market we are the only to offer our customers enhanced visual smoking experience - coloured shisha pipe filling. All the special dyes we use comply to rigorous sanitary standards of food industry. The set includes a dose with blue dye and a glass dosing spoon. The dose contains 250 ml of dye which is enough to colour water in 750 pipes.

**dying set - yellow / extra large****ID : AC15****capacity: 250ml****specification:**

Exclusively on the worldwide market we are the only to offer our customers enhanced visual smoking experience - coloured shisha pipe filling. All the special dyes we use comply to rigorous sanitary standards of food industry. The set includes a dose with yellow dye and a glass dosing spoon. The dose contains 250 ml of dye which is enough to colour water in 750 pipes.

silicone spacer

ID : AC16

size: Ø112mm (Ø4.4")**specification:**

Silicone spacer was extra designed for shisha models Mirage and Mirage Grande. Silicone spacer makes safe distance in between shisha corpus and Mirage (Grande) glass stand.

**metal box**

ID : ACP03

size: Ø66x22mm (Ø2.6x0.9")**specification:**

A pocket-size handy box. It can be used to store screen filters, tobacco, plastic tips...

**accessory pouch**

ID : AC17

price:**size:** 260x160mm (10.2x6.3")**specification:**

The double-pouch with zipper will prevent you from losing any of small shisha parts and will safely store the accessories and your flavored tobacco.

head (bowl) + 2 tubes

ID : AC18

size: Ø61x214mm (Ø2.4x8.4")**tobacco volume:** 7-10 g**time:** 40-60 min. of smoking**specification:**

A shisha head (bowl) with padded protective box. This mould Simax shisha head is made from the most durable glass on market which is used at chemical laboratories. As well as on all the Meduse Pipes glass components, the outer surface of the head is grounded, thus avoiding use of any gaskets and seals from nondurable materials (India rubber, etc.).

large head (bowl) + 2 tubes

ID : AC19

size: Ø86x214mm (Ø3.4x8.4")**tobacco volume:** 20-25 g**time:** 70-100 min. of smoking**specification:**

A large shisha head with padded protective box. This head (bowl) is great for more smoke on those multiple hose shisha pipes. Its made from the most durable glass on market which is used at chemical laboratories. As well as on all the Meduse Pipes glass components, the outer surface of the head is grounded, thus avoiding use of any gaskets and seals from nondurable materials (India rubber, etc.).

tube for head

ID : AC20

size: Ø12x145mm (Ø0.5x5.7")**specification:**

A tube with screw for head (bowl). This tube is made from the most durable glass (Simax) on market which is used at chemical laboratories. The tube is versatile for both size of Meduse Pipe heads.

coal tray

ID : AC21

size: 135x80mm (5.3x3.1")**specification:**

The stainless steel coal tray, intended for cinder preparation and subsequent pipe maintenance. Inserted between the glass corpus opening and the pipe head. Its setting is very easy and fast, there is no need for additional tools or sealing. The tray may be easily passed around the pipe to serve just where needed.

coal tray for large head

ID : AC22

size: 135x89mm (5.3x3.5")**specification:**

The stainless steel coal tray, intended for cinder preparation and subsequent pipe maintenance. Inserted between the glass corpus opening and the pipe head. Its setting is very easy and fast, there is no need for additional tools or sealing. The tray may be easily passed around the pipe to serve just where needed.

upper screen filter

ID : AC23

size: Ø40x55x15mm (Ø1.6x2.2x0.6")**specification:**

Its shape and material thickness guarantee balanced heating of tobacco mixture on the screen. The screen has holds on sides intended to help you with handling burning charcoal. It is made from stainless steel (AISI 304) used in food industry, which is approved for sanitary use even when heated.

upper screen filter for large head

ID : AC24

size: Ø68x79x9mm (Ø2.7x3.1x0.4")**specification:**

Its shape and material thickness guarantee balanced heating of tobacco mixture on the screen. The screen has holds on sides intended to help you with handling burning charcoal. It is made from stainless steel (AISI 304) used in food industry, which is approved for sanitary use even when heated.

lower screen filter (versatile)

ID : AC25

size: Ø29mm (Ø1.1")**specification:**

Special shape of the screen provides steady air circulation with regard to the most thrifty tobacco burning. It is made from stainless steel (AISI 304) used in food industry, which is approved for sanitary use even when heated.

tobacco tamper (charcoal holder)

ID : AC26

size: Ø66x106mm (Ø2.6x4.2")**specification:**

The stainless steel tobacco tamper was designed for spreading tobacco evenly along the whole head (large head only) surface to make it levelled. It is also possible to use the tamper like a charcoal holder.

wind cover

ID : AC27

size: Ø70x55mm (Ø2.8x2.2")**specification:**

The wind cover allows you to smoke indoor and outdoor without the fear of the charcoal falling on the floor. Using this wind cover will give you a smooth and consistent smoke out of your shisha pipe.

wind cover for large head

ID : AC28

size: Ø65x37mm (Ø2.6x1.5")**specification:**

The wind cover for large head allows you to smoke indoor and outdoor without the fear of the charcoal falling on the floor. Using this wind cover will give you a smooth and consistent smoke out of your shisha pipe.

head set

ID : AC29

specification:

Set includes:

- 1 pcs of standard head with container
- 2 pcs of tubes with box
- 1 pcs of upper screen filter
- 1 pcs lower screen filter
- 1 pcs of coal tray

large head set

ID : AC30

specification:

Set includes:

- 1 pcs of large head with container
- 2 pcs of tubes with box
- 1 pcs of large upper screen filter
- 1 pcs lower screen filter
- 1 pcs of coal tray (for large head)
- 1 pcs of tobacco tamper

CoCoBrico charcoal

ID : AC31

volume: 1Kg**specification:**

CoCoBrico - natural charcoal made out of coconut shells for shisha pipes. Using this charcoal is very cost effective. One 1Kg package will give you more than 30 charcoal units with a heat above conventional natural charcoal. CoCoBrico die down without leaving much residues. The Ashes weighs only 2% of the original product weight. 80% less than usual charcoal.

chameleon lamp set**ID : AC32****size: Ø205x80mm (Ø8x3.2")****specification:**

The Chameleon lamp was designed to implement advanced high-brightness LED technologies. A chip controlled optical synthesis system offers user-friendly operation and a limitless number of shades in full scale of the color spectrum. Chameleon has plenty of functionality options divided into four operational modes. With the help of Chameleon, two models of the Craft collection (Mirage and Mirage Grande) may be turned into an interactive lighting element or a position lamp, whose colours of all kinds of shades are set by a remote control. Thus, the water pipe transforms itself into a unique lighting object.

Set includes: stainless steel "CREE"LED module, remote control, audio cable set, power supply 15V.

**rechargeable chameleon lamp set****ID : AC33****size: Ø205x80mm (Ø8x3.2")****specification:**

This model of Chameleon lamp was designed for outdoor use, where mains power is not available. The stainless steel LED module of the Chameleon lamp contains a high-tech rechargeable Lithium-ion battery pack. The unit provides 5 hours of continual illumination during normal use. The unit is not suitable for use in wet environments (for example, when it is raining) and should be kept out of direct sunlight.

Set includes: stainless steel "CREE"LED module with integrated Li-ion battery pack, remote control, audio cable set and power supply 22V.

**remote control****ID : AC34****size: 164x34x16mm (6.5x1.4x0.6")****specification:**

A remote control with two micro AAA batteries.

Action radius: 15 meters (50 ft)

power supply**ID : AC35****size:** 75x34x43mm (3.1x1.3x1.7")**specification:**

Power supply AC-AC 15 V, designed to run on a 230 V socket.

! Never use any other power supply for Chameleon lamp.

**power supply for rechargeable chameleon****ID : AC36****size:** 107x50x32**specification:**

- Power supply AC-AC 22 V, designed to run on a 230 V socket.

- 230 V cable.

! Never use any other power supply for Chameleon lamp.

**audio cable set****ID : AC37****specification:**

Audio cables to connect the lamp with source of audio signal. This set consists of three components:

- 3.5 mm jack stereo - cable M/M, length 1,5 m (4.9 ft)
- 3.5 mm stereo jack - extension cable, M/F, length 5 m (16.6 ft)
- adapter (3.5mm jack to 6.3mm)

battery Li-ion pack

ID : AC38

specification:

spare Li-ion battery pack for Chameleon lamp

Manufacturer: SAMSUNG SDI

Nominal Voltage : 18.5V

plastic mat**ID : AC39****size: Ø500mm (Ø19.6")****specification:**

The transparent plastic mat under a shisha pipe for safer and more comfortable smoking.

**large plastic mat****ID : AC40****size: Ø700mm (Ø27.6")****specification:**

The transparent plastic mat under a shisha pipe for safer and more comfortable smoking.

**carpet mat****ID : AC41****size: Ø750mm (Ø29.5")****specification:**

A carpet mat under a shisha pipe for safer and more comfortable smoking. The mat made from high twisted nylon is moisture absorbent and durable.

large carpet mat**ID : AC42****size:** Ø1100mm (Ø43.3")**specification:**

A carpet mat under a shisha pipe for safer and more comfortable smoking. The mat made from high twisted nylon is moisture absorbent and durable.

cleaning agent**ID : ACP04****capacity: 500ml****specification:**

Highly effective Cleaner cleaning agent was developed specially for Meduse Pipes. Thanks to its enormous degreasing capacity it is perfect for removing the smoke sediments. We recommend using reasonable quantity of the cleansing agent (app. 1 tablespoon), foaming it with the brush, and then cleaning all inner surfaces of the pipe body.

**big brush****ID : AC43****size: Ø80x450mm (Ø3.2x17.5")****specification:**

The brush was designed for shisha Meduse Pipe cleaning and it will easily reach the very bottom of your pipe. The brush is adjustable, it can be swiftly set to the angle, in which you easily clean even the inner surface of the top glass part of the shisha pipe. We recommend using the brush together with the Cleaner cleaning agent.

**head tube brush****ID : ACP05****size: Ø12x260mm (Ø0.5x10.2")****specification:**

Using the head tube brush you can clean glass head-tube with ease. We recommend using the brush together with the Cleaner cleaning agent.

mirage handle brush

ID : AC44

size: Ø18x320mm (Ø0.7x12.6")**specification:**

The brush was designed to help you clean the Mirage (Mirage Grande) glass hose handle. We recommend using the brush together with the Cleaner cleaning agent.

**scrubbing pad**

ID : AC45

size: 100x150mm (3.9x5.9")**specification:**

The scrubbing pad is useful to remove burnt impurity inside the shisha head and upper screen filter.

**washing (handling) table**

ID : AC46

size: 200x340x270mm (7.8x13.4x10.6")**specification:**

The plastic washing table was designed for safe pipe glass corpus handling, cleaning and servicing.

transportation bag

ID : AC47

size: Ø290x500mm (Ø11.4x19.7")**specification:**

The Meduse Pipes double-compartment kit-bag. The zipper bottom compartment is intended for the accessories, the top compartment should hold the glass body of your shisha pipe. The bag is not designed for longer trips, it is perfect for carrying your pipe around (e. g. the city).

wood box exclusive (noble+brute size)

ID : AC48

size: 1010x320x320mm (39.8x12.6x12.6")**specification:**

The Meduse Pipes wood-box was created for protection and easy transportation of Meduse shisha pipe. Its made from high quality Oak tree wood. This box-size is designed for models Brute and Noble.

wood box exclusive (mirage size)

ID : AC49

size: 1095x320x320mm (43.1x12.6x12.6")**specification:**

The Meduse Pipes wood-box was created for protection and easy transportation of Meduse shisha pipe. Its made from high quality Oak tree wood. This box-size is designed for model Mirage with Chameleon lamp.

size: 1325x320x320mm (52.2x12.6x12.6")

specification:

The Meduse Pipes wood-box was created for protection and easy transportation of Meduse shisha pipe. Its made from high quality Oak tree wood. This box-size is designed for model Mirage Grande with Chameleon lamp.
